& Garland LLP

Gabe Darwick, Co-Presenter for Claims and Litigation Management Alliance

January 21, 2020

Please join Gabe Darwick on January 29, 2020 at 12:00 p.m. EST as he co-presents a webinar for Claims and Litigation Management Alliance, titled, “More Money, More Problems: Claim and Coverage Issues Unique to High SIR Policies.”

Although a liability policy with a high self-insured retention may afford a carrier financial “breathing room” and an insured greater control over its own defense, the administration of such a policy is not without risk to both parties. This webinar will address the unique claim and coverage issues that carriers and insureds face when addressing claims submitted under policies with a high self-insured retention, such as the retention, payment and control of defense counsel, priority of coverage, and attachment of excess policies.

You do not have to be a CLM member to sign up. Follow the link below for registration information.
